PPGCL
PRAYAGRAJ POWER GENERATION COMPANY LTD.

ENERGY POLICY

We believe that Energy is the key factor for economic development and should be used in a responsible, economical and sustainable manner. Prayagraj Power Generation Limited (Acquired by Resurgent Power Ventures (RPV)- A joint venture of Tata Power, ICICI Bank, and international investors), is committed to energy conservation in all spheres of its operation and maintenance by adopting the following principles and complying to the requirements of ISO 50001:2018 (Energy Management system):

- Create awareness among the stakeholders about energy conservation and its benefits at large.
- Adopt and promote energy efficient technologies, products and services while protecting human health and the environment.
- Comply with and where practicable exceed applicable legal, regulatory and other energy-related requirements.
- Benchmark against industry leaders and conduct periodic energy audits to identify energy conservation opportunities for continual improvement.
- Ensure speedy execution of energy performance improvement projects in all spheres.
- Ensure low Auxiliary power consumption so that energy is conserved for more productive use.
- Adopting Risk based approach for improving energy performance.
- PPGCL will promote Continual Improvement to improve Energy Efficiency.
- PPGCL will support procuring Energy Efficient Products.
